

# Gulf Streamers International RV Club

## Placement of Unit Decals

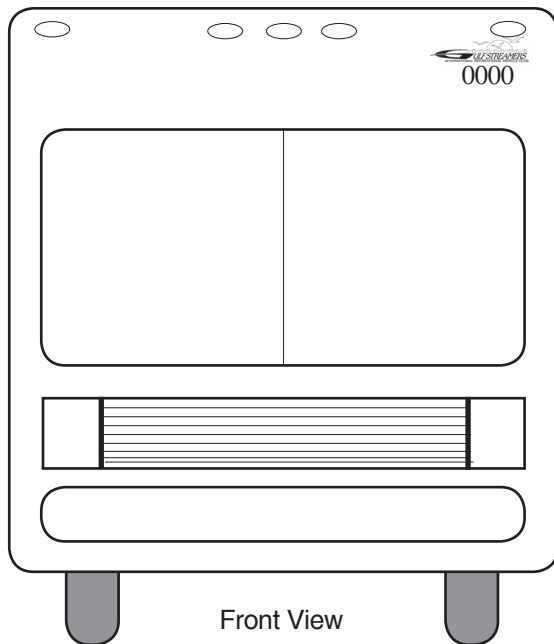

This is an example of how to place your unit decals and numbers:

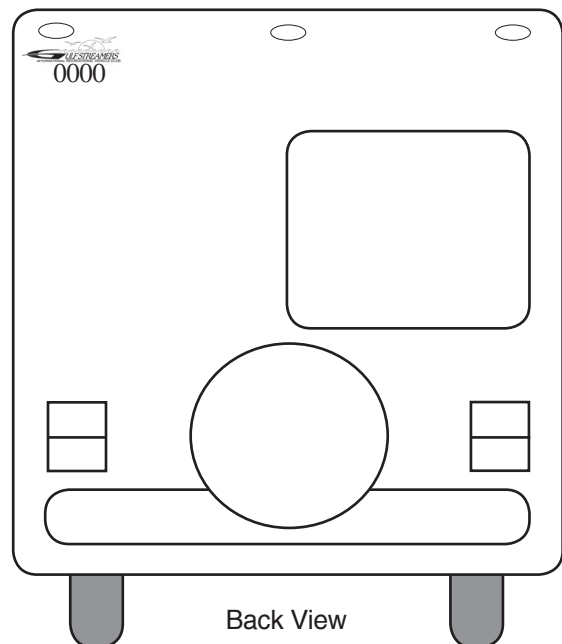

(Club Decal)

0000

(Membership Number)

Front View

Back View

Decals and Numbers should be placed on the front and back of the RV unit. They should be placed directly below the running light on the highway side (right side when looking directly at the front of the unit; left side when looking at the back). Keep them as high and as visible as possible. The number (your membership number) should be placed directly below the club decal. Due to different floorplans on units, it may not be possible to place decals in the recommended position. Alter as necessary, keeping the decal as visible as possible.
